

$$D = C_0 * d * t$$

$$C_f = C_0 - D = C_0 - (C_0 * d * t)$$

$$C_f = C_0 * (1 - (d * t))$$

$$D = 3000 * 0.12 * 1 = 360 \text{ um}$$

$$C_f = 3000 - 360 = 2640 \text{ um}$$
